

History of the census

The first official population census :

USA

1790

Sweden

Finland

1800

Denmark

Norway

England

France

1801

The first official registration on the territory of Uzbekistan:

The first population census on the territory of Uzbekistan was conducted **in 1897**, and the data of this census helped to create an idea about demographic processes such as **the number of families, population, age and gender, ethnic composition, birth, and death in Uzbekistan.**
